

Are Bankers Human Beings?

TOO much protesting "We are human and friendly" in bank advertising has opened the question whether bankers are real humans, approachable and capable of friendship.

This Trust Company is in business to make reasonable profits—and that's human.

We believe that a Trust Company to be successful must give full measure of service in dollars and cents to depositors as well as make every effort to help with kindly advice in problems affecting its clients—and that's friendship.

SENATE COMMITTEE FOR 145,500 ARMY

Enlisted Force of 133,000 and 12,500 Officers Provided in Measure.

TO REPORT BILL AT ONCE

Appropriations Would Be Increased \$46,000,000 Over the House's Figures.

WASHINGTON, May 23.—Provision for a regular army of 133,000 men and 12,500 officers was made to-day by the Senate. Military Committee in virtually completing revision of the annual army appropriation bill.

House appropriations were increased by the Senate committee \$46,000,000. A contest with the House was predicted in view of the House limitation on the army to 113,000 men and 11,000 officers. Chairman Wadsworth was authorized by the committee to report the bill at once to the Senate and seek an arrangement for early consideration.

None of the Democratic committee members voted against reporting the bill, but there was a reservation of a right to offer amendments. Some Democratic Senators expressed themselves as believing the personnel authorization excessive and said they were considering offering amendments to reduce the 133,000 figures. Some Republicans also were reported to be planning a reduction fight.

Although the committee provided appropriations for 133,000 men the bill would authorize a maximum personnel of 140,000. This, it is said, was to give to the War Department some latitude in recruiting to fill gaps caused by enlistment expirations.

As passed by the House the bill carried appropriations of about \$288,000,000. The Senate increase, it was explained, was due largely to increased cost of the additional personnel and also salary increases for officers provided for under the service pay revision bill passed recently by both branches of Congress.

In disposing of amendments to the bill the Senate committee approved the House clause providing for training of reserve officers and privates, including 10,000 reserve officers and 20,000 enlisted men. The committee amended the House bill to cut the travel pay of reserve officers to the training camps from eight to four cents a mile and disapproved a request by the War Department for an increase in the authorized training corps.

Revised estimates furnished the committee by the Department to-day, it was stated, showed that the Regular Army, through reduction in enlistments now had been cut to about 133,000.

INDIANA PLATFORM PROBLEM FOR G. O. P.

Clean Cut O. K. of Washington Conference Likely to Alienate Beveridge.

4 POWER TREATY ISSUE

Leaders Would Sidestep Too Hearty Indorsement of Administration.

Special Dispatch to THE NEW YORK HERALD. INDIANAPOLIS, May 23.—Nationwide interest in political circles centers on the drafting of the Republican platform of Indiana in the next two days.

Whether the Republican State convention, which will meet here to-morrow, should "point with pride" to the work of the Washington conference, called by President Harding, and specifically approve the naval limitation treaty, the four Power compact and other treaties which have been ratified by the United States Senate, or should adopt a plank drawn in a general style, presumably not to displease Albert J. Beveridge, nominee for United States Senator, who did not indorse the Washington conference in his primary campaign, but by indirectness opposed it was the leading question before Republican leaders to-night.

From the vigor with which many of the leaders said the Harding Administration should be indorsed, and specifically for the work of the Washington conference, it appeared that those advocating using general terms would not win their point.

Fear was expressed in some quarters that if the four Power compact were approved Mr. Beveridge would "jump the platform" in his campaign next fall, but at the same time many of the leaders said the views of one man should not be permitted to override the views of the party, which has many other candidates besides the one for United States Senator.

It was understood that the plank as it stands now relating to the Harding Administration was in the hands of Senator Watson and W. C. Bobbs of the Armistage-Bobbs-Shank political faction in Indianapolis, who, it was understood, had gone for a conference with Mr. Beveridge.

One of the Beveridge men said it would be all right if the Harding Administration plank indorsed President Harding for his efforts in "the direction of international peace" and approved the calling of the Washington conference.

"In keeping with a resolution that had been offered in the United States Senate by Senator Bobbs," he said, "there would be danger in specifically approving the four Power treaty. He indicated that Mr. Beveridge was opposed to indorsement of the four Power com-

act even more than to the naval limitation treaty.

A Republican leader from southern Indiana said the Beveridge forces were willing to indorse the Harding Administration in general terms and to approve of the leadership of the President in his efforts "in the direction of international peace," but that several of the Beveridge men were opposed to indorsing the Congress.

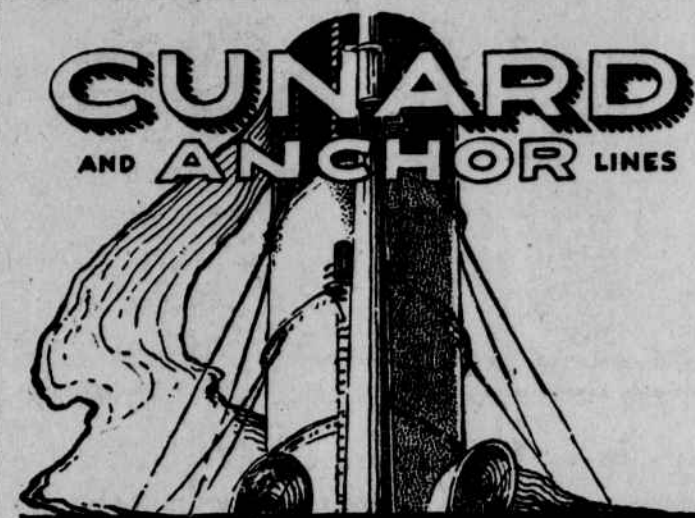

Lawrence Lyons, chairman of the Republican State Committee, who attended a preliminary conference on the platform, said: "The indorsement of the Harding Administration will be strong—just as strong as we can make it."

Senator Watson, who arrived from Washington to-day and who will make

the keynote speech as temporary chairman of the convention, was asked whether he brought with him the plank on the Harding Administration, which was supposed to have been drawn in Washington.

"No," he said. "Several persons have formulated planks on that subject. We haven't got into that yet."

How to find words for a plank that would not displease Mr. Beveridge and at the same time would not be resented by the Republicans who are saying the Harding Administration must be indorsed heartily, with a specific approval of the Washington conference, is one of the nicest problems platform makers have had in a long time.

Luxury for Leisurely Travelers at Moderate Cost

SCYTHIA SAMARIA
LACONIA
CAMERONIA TUSCANIA
CARONIA CARMANIA

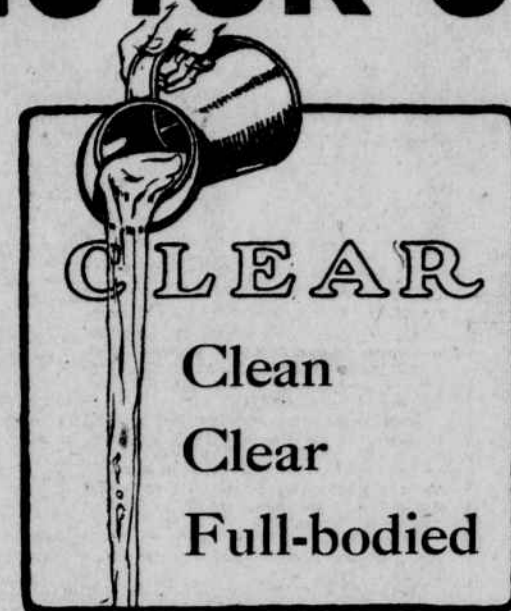

If speed is essential, the Cunard Weekly Express Service is the fastest on the Atlantic. Composed of the great Cunarders BERENGARIA, MAURETANIA and AQUITANIA. Sailings every Tuesday from New York. The SAMARIA sails from Boston.

The addition of many splendid new steamers to their fleet enables the Cunard Line to offer the traveling public over 100 sailings during the coming season. There is still excellent accommodation available for many of these sailings.

REMOVE THE FILM WITHOUT GRITTY SCOURING AND YOUR MOUTH IS CLEAN

IF you are one of the hundreds of thousands who have used the KOLYNOS METHOD of removing the viscous tooth film, compare your teeth with one who has been USING GRIT!

All over America, widespread injury is being done by scratching and scouring the teeth with GRIT in order to make them LOOK WHITE, and in AN ATTEMPT TO GET RID OF THE TOOTH FILM.

It has been demonstrated many times that harsh mineral abrasives wear away the enamel of the teeth, just as emery wears away hard metals.

There is ONLY ONE SAFE WAY IN WHICH A DENTIFRICE CAN REMOVE THIS FILM—IT MUST DISSOLVE IT.

For Ladies of the Court

After continued work of several years, two eminent American dental scientists in Europe developed the formula of KOLYNOS DENTAL CREAM. It was intended, primarily, for the ladies and functionaries of THEIR COURT PRACTICE.

One of these two men who developed the KOLYNOS formula—a formula which recognizes that GRIT IS VERY HARMFUL TO THE TEETH, was a leader among bacteriologists—the first scientist to discover and study bacteria of the mouth.

Bacteria Must Be Eliminated

In order to RENDER POWERLESS the bacteria lodged in colonies under the tooth film, THAT FILM MUST BE DISSOLVED AND THE GERMS ELIMINATED.

The Kolynos Company
New Haven Conn.
U.S.A.

The film IS READILY DISSOLVED IN KOLYNOS, as you brush your teeth, and by the same process THE GERMS ARE ELIMINATED.

This debris is washed away, along with particles of food otherwise left to decay, or ferment, in the incubating temperature of the mouth.

We have on file in our New Haven laboratories personal applications from over 47,000 American Dentists and 74,000 American Physicians for Kolynos Dental Cream, to distribute among their patients.

Scientific and artistic dentistry could put the teeth of the court ladies in the BEST POSSIBLE SHAPE, but the KILLING OF HUNDREDS OF MILLIONS OF GERMS, and the sweetening of the entire mouth by hygienic methods, was shown to be the ONLY WAY beautiful teeth could be kept beautiful.

KOLYNOS DENTAL CREAM WAS DEVELOPED AS THE ONLY DENTAL PREPARATION IN EXISTENCE WHICH WOULD DO JUST THESE THINGS.

It remains the only dentifrice which will do them.

Keep your teeth LUSTROUS and BEAUTIFUL WITHOUT GRIT. Get the world's BEST INSURANCE against the DEATH or DISABILITY of your teeth.

USE KOLYNOS.

ENOZ

(Pronounce it Ee-Noz)

KILLS MOTHS

(Will Not Stain)

Use It and Save Your Furs, Feathers, Rugs and Clothes

ENOZ is the only **positive** and **proved** moth destroyer that has ever been offered to the public. Its efficiency is liberally attested by the leading wholesale and retail dealers in woolsens, furs, feathers, rugs, carpets and upholstery who use it to preserve their own valuable stocks.

ENOZ will not stain or damage the finest of fabrics in the slightest degree. It is non-poisonous and non-explosive and even the odor which is of a clean, antiseptic character, disappears entirely within an hour or so.

ENOZ penetrates every crack, crevice and isolated spot. It goes entirely through the weave.

It is not a smoke or a smell but a liquid which strikes the moth direct and guarantees to kill. The fact has been proved by many big manufacturers and wholesale houses which have used ENOZ for some time to protect their valuable stocks.

Remember:
Enoz Kills Moths
It is more than a repellent

Pint of Enoz \$1.00
Quart of Enoz \$1.65
1/2 gal. and gal. sizes even more economical.
Improved Sprayer \$1.00
Junior Sprayer60

Sold by drug, department and household equipment stores everywhere. If yours does not sell it send us his name, and enclose price and we will supply you.

ENOZ CHEMICAL CO.
705-7 N. Wells St., Chicago

Don't confuse ENOZ with any other moth remedy. There is nothing as good. ENOZ is processed.
